Attorney and Counselor at Law.  
Office, over the Prescott Electric Building, corner of Main and Second streets, Prescott, Arizona.

COLLINS & ALTMAN,  
Attorneys and Counselors at Law.  
Prompt attention given to business of all kinds. Will practice in all Courts of Arizona.

H. H. HELM'S Assay Office!  
Cortez Street,  
Next to W. F. & Co.'s Office,  
PRESCOTT, ARIZONA.

Prompt Attention Given to Samples  
Sent by mail or Express.

H. E. ARMISTEAD,  
M. A. I. M. E.  
Mining and Mechanical Engineer.  
Mining examined and estimates given on Milling and Reduction work.  
Post Office Box 21, Prescott, Arizona.

C. POWERS & HERRITT,  
United States Mineral Surveyors,  
Deal in Real Estate and Negotiate Loans  
PRESCOTT, ARIZONA.

SECRET SOCIETIES  
Arizona Lodge No. 1, F. & A. M.  
Regular meetings of this lodge every Monday at 8 p. m. at K. of H. Hall, Prescott, Arizona. Visiting brothers are fraternally invited to attend.

S. N. FREDERICKS, Secretary,  
Examining Committee, H. S. Fredericks,  
A. J. Johnson, Exalted Master.

Prescott Chapter No. 2, R. A. M.  
Stated communications of this lodge every Saturday of every month at 7 o'clock p. m. Visiting companions cordially invited to attend.

H. S. FREDERICKS, Secretary,  
Examining Committee, H. S. Fredericks,  
A. J. Johnson, Exalted Master.

Ivanhoe Commandery No. 2, K. T.  
Stated communications first Friday of each month, 8 o'clock p. m. at K. of H. Hall, Prescott, Arizona. Visiting brothers are fraternally invited to attend.

H. S. FREDERICKS, Secretary,  
Examining Committee, H. S. Fredericks,  
A. J. Johnson, Exalted Master.

EASTERN STAR,  
Golden Rule Chapter No. 1, W. C. T. U.  
Regular meetings of this chapter every Monday at 8 o'clock p. m. at K. of H. Hall, Prescott, Arizona. Visiting chapters are fraternally invited to attend.

FRANCIS W. MCGEE, Secretary,  
Examining Committee, H. S. Fredericks,  
A. J. Johnson, Exalted Master.

Prescott Lodge No. 1, KNIGHTS OF PYTHIAS  
Regular meetings of this lodge every Monday at 8 p. m. at K. of H. Hall, Prescott, Arizona. Visiting brothers are fraternally invited to attend.

W. J. CRAFT, K. of H. & E. & S. G.  
G. E. LYLE, K. of H. & E. & S. G.

IMPROVED ORDER OF RED MEN,  
Zuni Tribe No. 4, Prescott, Arizona. Regular meetings of this lodge every Monday at 8 o'clock p. m. at K. of H. Hall, Prescott, Arizona. Visiting brothers are fraternally invited to attend.

## GROOM CREEK ACTIVITY.

The Old District Looming Up

More and More Every Day as a Gold Producer.

The Journal-Miner Correspondent Tells of the Development Work Being Done and the Results Being Obtained.

Groom Creek, Aug. 25th. (Editor Journal-Miner)—Commencing with Mr. Woods' group of fourteen claims, we will first take the Midnight Test mine. They are about 200 feet and will keep on sinking till they reach the depth of 500 feet. They have run levels from 100 to 300 feet long at the first and second stations. At the bottom of the shaft they go down more than pays for the sinking. This ore is covered with horn silver or as some call it, green silver. You can cut it with a knife like talow. It was given a very beautiful specimen of false native silver with specks of gold sprinkled through it. They have two classes of ore, free and smelting. They have a man sorting ore all the time, which they sack and send to El Paso for smelting. By the looks of the pile of ore on the dump, they must have some four hundred tons of ore on the dump. Their next mine is the Victor or Wild Dutchman as they have named it; they are down on this property 103 feet. They have a new hoist with a 30 horse power boiler and they have just received 1200 pound Cameron sinking pump, as they have struck quite a stream of water. Some of the miners think this is going to be the biggest mine on the Creek, as they have got between five and six feet of high grade ore in the bottom of the shaft. I understand in the near future the Monte Cristo 10-stamp mill at Peoples valley will be moved up here on the Creek.

Monte Cristo Mine.

They are taking out and piling up plenty of first class silver ore. It also carries good value in gold. They are down 240 feet, run ore levels from the two stations. They are building a five stamp mill and a good deal of their machinery has already come. They are also building a dam across the gulch to catch the tailings.

Empire Mine.

Two shifts are sinking, now down 370 feet. Some of the knackers were prophesying that this mine would break down in a week, but it has been built. Instead the mill has been running eighteen months steady and I will say that the mine looks better and richer every day. I have seen time since they have commenced. Mr. Mansfield is superintendent. He is a young man, but seems to understand his business thoroughly. He is also looking after Mr. Rice's property. Mr. Rice is in Boston and will be here in about ten days. I understand they will put a hoist on the Little Giant and the Almy when he comes.

Summit Mountain Mine.

Owned by Sam Griffin and Victor Kell, but now owned by Mr. Der of New Jersey. They have a shaft down seventy feet and Mr. Griffin has taken out very good gold ore. Chas. Behm is running men working on the wagon road and we expect to have the road completed in ten or twelve days. Their machinery is already here and they expect to do some deep mining and I hope to see time since they have commenced. Mr. Mansfield is superintendent. He is a young man, but seems to understand his business thoroughly. He is also looking after Mr. Rice's property. Mr. Rice is in Boston and will be here in about ten days. I understand they will put a hoist on the Little Giant and the Almy when he comes.

Looking from here over the country it would surprise the old timers to see the progress that is going on. Looking across the Lynx Creek we see Mr. Pickrell's wagon road. He has between twenty-five and thirty men working. He is building one of the finest wagon roads in the county and he is taking time and money to do it. They say it will cost five thousand dollars, but then he will have a wagon road to haul ore on. You can also see hundreds of cords of wood and thousands of feet of stulls, plenty of large dumps where men are under the sky, and being worked, and with the roar of shots being put off it looks a busy scene and as it is one of the best ledges from Groom Creek to Big Bug, running in a south and south easterly direction and I prophesy inside of five years you will see one of the biggest mining districts in the United States and I don't see why you should go so far away from the railroad, water and timber when we have everything so handy here.

As I do not wish to take up all of your paper, I will close with the remark that we now have a postoffice named Oakdale, two stores, two saloons and a hotel, where a man can put up and look over the country. Prescott had better look out or we might have the county seat moved out here.

Thos. J. Laird.

Of the five living ex-confederate generals in the State of Virginia, four were present at Rauloake the other day as delegates to the republican convention. This one of the results of Bryanism and Tillmanism in the south.

Monte Cristo, Empire, Slack's, Monahan's, Midnight Test and Behm's Mines.

A. C. W. is presently attending to the "Silvered".

Returning with us on Groom Creek at 10:30 p. m.

## INSPECTOR JOSSEY'S TRAGIC DEATH.

He Fires a Charge of Bird Shot Into His Heart by Accident or Design.

He Goes Out at Four O'Clock in the Morning Ostensibly to Kill a Skunk and Kills Himself.

A telegram from Tucson gives details of the tragic death of B. F. Jossey, charged with being implicated in the smuggling of Chinese at Nogales. It says:

A second chapter to the startling Nogales custom has been added today by the death of Chinese inspector B. F. Jossey, who occurred at his home at 4 o'clock yesterday morning, the result of the accidental discharge of a shot gun in his own hands.

Jossey has for the past six months owned and operated aside from his duties as custom inspector, a poultry yard for the raising of fine chickens. He has lately lost several of his best fowls by the onslaught of skunks. About 4 o'clock yesterday morning, hearing a disturbance in his back yard, he took his shot gun and started to the chicken yard hoping to get a shot at one of the intruders. In climbing over an intervening fence his gun was accidentally discharged, the shot entering his breast just above the heart. Death occurred almost instantaneously. The body was found by the fence and the body of Jossey on the other.

The news of his death was telephoned to the sheriff's office and a coroner's jury quickly impelled to view the remains. After a few minutes deliberation they arrived at the verdict to the effect that the deceased met his death by the accidental discharge of a shot gun in his own hands.

Deputy Revenue Collector S. M. Cullum was in Tucson the evening preceding the tragedy and in speaking of the affair he said that Jossey at the Tucson depot just before leaving, and at that time he appeared to be in the best of spirits. In reply to the joking remark from Cullum that he thought he was spending these days in jail, Jossey replied with a laugh, that he did not believe he would be there very soon, and if ever put in, it would be for such a short time it would not be worth while to have the department was a little preoccupied in giving out the news of his arrest to the press on Saturday, when his brothers and sisters, a true and affectionate family, with the installation of M. M. Parker as president, the university has experienced a new birth. And this was true, for the entire policy was gradually changed, discipline established, improvements in every department introduced with marked results. The faculty was pruned and strengthened and made more effective.

All this was to be expected from President Parker, for he was and is, admirably adapted and qualified for the trust he has and is administering so faithfully to the gratification of all friends of education.

President Parker is a born educator. He is a college man and comes from a long line of college educators. He has been engaged in the business of education continuously since he reached his majority, and his record is one line of successes. His achievements in the past are probably largely due to his fine character and spotless reputation as well as to his scholarly attainments and educational qualifications. Such a character makes its impression on the student force of any educational institution, as well as on the community at large, and as far as the influence of the University extends.

The Board of University Regents showed its appreciation of the services and character of President Parker when at the close of the university year, last June, it re-employed him for another term of four more years with an increase of salary of \$500 per annum. This was a mark of confidence well merited, and which was most favorably commented upon by the press of the territory, for it means four more years of rapid growth and prosperity of the University of Arizona. President Parker entered upon his new term of service with renewed zeal and high hopes for still greater achievements in the future than of the past. Arizona has come to be proud of this institution, and to President Parker and his faculty, and the Board of Regents is due the largest measure of praise.—Tucson Star.

Mining Intelligence.

An announcement appears in this issue of the mining of special interest to Yavapai county. It is the announcement of the Val Verde company that it will start up its smelter early in October for the treatment of ores. This smelter is complete in every particular being equipped with the very latest style of furnaces and with the latest improvements being made in the treatment of ores. It is a good smelter except all kinds of ores offered and small producers as well as larger ones will find a market for their ores right at home. The impetus which the operating of this smelter, and the concentrating plant of the Standard Smelting and Refining company which will be run in connection with it, is incalculable. The attention of all interested is directed to the company's announcement in this issue.

T. F. Grindell, clerk of the territorial supreme court, spent Monday in Prescott. He was on route home from attending the Rough Riders' reunion at Colorado Springs and from a visit through Colorado.

Inspector Jossey's death was a tragedy. He was a man of great ability and had been in the service of the government for many years. His death was a great loss to the community.
